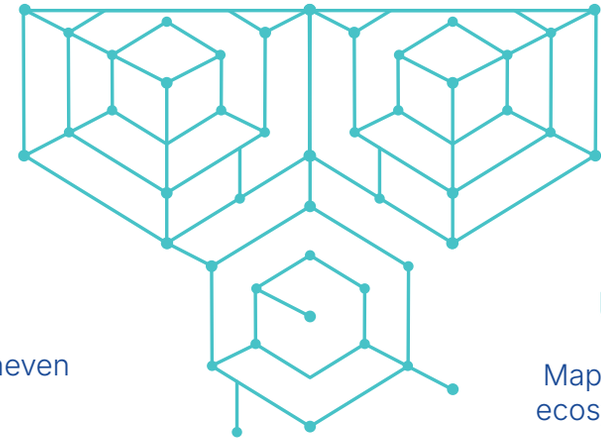
EUROCYBER NEXUS

Strengthening Europe's Interconnected Cybersecurity Innovation Ecosystems

Europe has cybersecurity ambition.
It lacks coordination.

EUROCYBER NEXUS is a Horizon Europe project connecting regions, organisations and innovation actors to build more connected, resilient and innovation-driven cybersecurity ecosystems across Europe.

From Regional Challenges to a Shared European Roadmap



Cybersecurity innovation in Europe remains fragmented, with uneven regional capacities and many SMEs still unprepared for new EU cybersecurity requirements.

EUROCYBER NEXUS connects regions with different levels of innovation maturity to strengthen cooperation, exchange knowledge and align cybersecurity innovation and regulatory readiness.

Through peer learning, shared methodologies and common tools, the project turns regional challenges into coordinated European action.

UNDERSTAND

Map regional cybersecurity ecosystems and challenges.

EXCHANGE

Connect regions through peer learning and co-design.

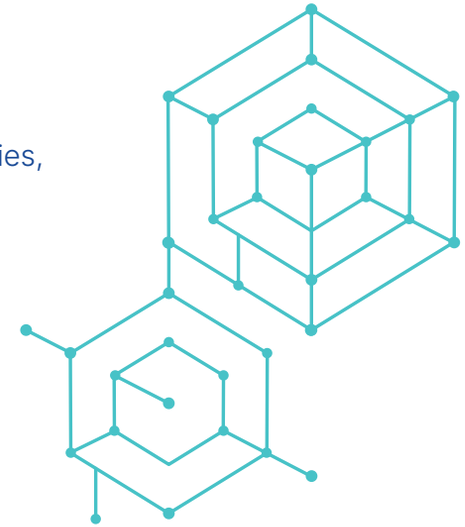
What You Can Do

Connect Across Regions
Join a European ecosystem bringing together public authorities, research organisations, innovation actors and businesses.

Exchange Knowledge
Share experiences, challenges and good practices through structured peer-learning activities.

Contribute to Shared Solutions
Support the development of common methodologies, tools and indicators for stronger cybersecurity ecosystems.

Shape Future Cooperation
Contribute to shared priorities for future investment, policy action and interregional cooperation.



ALIGN

Develop common tools and indicators to track progress.

ACT

Co-create a Joint Interregional Roadmap 2026–2028 for investment and cooperation.
